Dongmin Go

ckwlgns90@gmail.com | GitHub: godongdongmin | godongdongmin.github.io

Experience

HUROTICS *Mar. 2026 - Present*
Wearable Robotics Software Engineer

Samsung Electronics *2022 - 2023*
Equipment Engineer, Memory Business, Device Solutions (DS) Division

- Responsible for EUV lithography equipment

Education

Chung-Ang University *2024 - 2025*
M.S. in Mechanical Engineering

- GPA: 4.37 / 4.50
- Assistive and Rehabilitation Robotics Lab
- Advisor: Prof. Giuk Lee

Chung-Ang University *2015 - 2021*
B.S. in Mechanical Engineering

- GPA: 3.82 / 4.50

Publications

J = Journal, C = Conference, T = Thesis, W = Work in progress

[J.1] Kimoon Nam, Saikat Sahoo, Yoosun Kim, **Dongmin Go**, Jeongho Choo, Cheonkyu Park, Seungtae Yang, and Giuk Lee. **Reducing Personalization Time and Energy Cost While Walking Outdoors with a Portable Exosuit**. *Advanced Robotics Research*, vol. 2, no. 1, e202400027, 2026 (first published online June 29, 2025).

[C.1] **Dongmin Go** and Giuk Lee. **Domain Generalization for Subject-Independent Walking Locomotion Mode Classification Using Wearable Sensors**. *KSME Bioengineering Division Spring Conference, Abstract Book*, p. 113, May 2025.

[T.1] **Dongmin Go**. **Synergistic Myomimetic Control of Exosuit via Unified-Critic Reinforcement Learning**. *Master's thesis, Mechanical Engineering, Chung-Ang University*, 2025.

[W.1] **Dongmin Go**, Insu Choi, Kyeongmin Lim, Sejong Lee, and Giuk Lee. **Myomimetic Exosuit Assistance Across Terrains via Unified-Critic Reinforcement Learning**. Journal extension of master's thesis [T.1]. *Work in progress; not yet submitted*.

Selected Projects

H-MEDI Wearable Robot at CES 2025 *2025*
High-Level Control Algorithm Development & Live Demonstration

- Developed and integrated motion-state recognition and target assistance-force generation for walking, stopping, and transitions between sitting and standing.
- Operated live demonstrations, responded to unexpected on-site situations, and managed the robot and batteries between demonstrations.

Project photos and demonstration videos

Honors and Awards

Excellence Award *Jan. 7, 2021*
2020 LINC+ Capstone Design Award · Chung-Ang University LINC+

Dean's Award, College of Engineering *Nov. 29, 2019*
2019 CAU Engineering Academic Festival · Chung-Ang University
